FIRMAN SYAPUTRA

INFORMATION TECHNOLOGY | IT SUPPORT | WEB DEVELOPMENT

Bekasi, West Java | emailfirman1502@gmail.com | +62 89663449595 | linkedin.com/in/firmansyaputra15

PROFESSIONAL SUMMARY

Fifth-semester Informatics Engineering student with foundational knowledge of web development, IT support, Linux system administration, and application development. Familiar with HTML, CSS, JavaScript, Flutter, Dart, Docker, and Linux environments through academic projects and independent learning. Also learning microcontroller programming and basic IoT system concepts using Arduino IDE. Brings 2 years and 3 months of manufacturing experience, with strengths in discipline, attention to detail, teamwork, and following standard operating procedures. Seeking an IT Support or Web Development internship to apply technical skills and gain professional experience.

EDUCATION

Universitas Panca Sakti, Bekasi | Bachelor's Degree in Informatics Engineering
Faculty of Science and Technology | September 2024 – Present | GPA: 3.95/4.00

WORK EXPERIENCE

Production Operator | PT Aneka Mitra Gemilang (Wings Group)
November 2022 – February 2025

- Operated production machinery while maintaining product quality and meeting daily production targets.
- Performed machine setup and routine inspections to help minimize operational interruptions.
- Followed standard operating procedures (SOPs), safety guidelines, and quality standards in a fast-paced manufacturing environment.
- Coordinated with maintenance and production teams to support smooth daily operations.
- Prepared production and material reports to support operational documentation.

INTERNSHIP EXPERIENCE

Intern – Logistics and Procurement | PT Astra Otoparts Tbk
January 2019 – April 2019

PROJECTS & TECHNICAL LEARNING

Linux Server and CCTV Monitoring

- Practiced managing a Debian-based Linux server and deploying services with Docker.
- Worked with Nginx Proxy Manager, Cloudflare Tunnel, and Frigate for remote access, reverse proxy management, and CCTV monitoring.

Library Application | Flutter & Dart

- Developed a simple library application as a learning project using Flutter and Dart, with development and testing in Visual Studio Code and Android Studio.

Automatic Barrier Simulation and IoT Learning | Arduino IDE & Arduino Mega 2560

- Learned microcontroller programming with Arduino IDE and basic IoT system concepts.
- Practiced integrating an HC-SR04 ultrasonic sensor, servo motor, LED indicators, and buzzer to simulate an automatic barrier system.

2D Platform Game | Construct 2

- Created a 2D platform game as an academic learning project using Construct 2.

TECHNICAL SKILLS

Programming & Web: HTML, CSS, JavaScript, Flutter, Dart

Systems & Tools: Linux, Debian, Docker, Nginx Proxy Manager, Cloudflare Tunnel, Frigate, Arduino IDE, Construct 2

Productivity: Microsoft Word, Microsoft Excel, Microsoft PowerPoint

SOFT SKILLS & LANGUAGES

Soft Skills: Discipline, attention to detail, responsibility, teamwork, adaptability, and ability to follow SOPs.

Languages: Indonesian (Native), English (Basic)
