PROFESSIONAL SUMMARY

Fifth-semester Informatics Engineering student (GPA 3.95/4.00) with hands-on experience in Linux server administration, Docker, network topology (Cisco, basic MikroTik), and web and mobile application development. Built a self-hosted Linux server with Cloudflare Tunnel, Nginx Proxy Manager, and Frigate CCTV monitoring. Brings 3 years and 3 months of manufacturing experience, with strengths in discipline, attention to detail, teamwork, and following standard operating procedures. Seeking an IT Intern, IT Support, or IT Staff role (internship, contract, or full-time) to apply technical skills and gain professional experience.

EDUCATION

Universitas Panca Sakti, Bekasi | Bachelor's Degree in Informatics Engineering
Faculty of Science and Technology | September 2024 – Present | GPA: 3.95/4.00
BNSP Competency Certification | KKNI Level II in Computer and Network Engineering | Issued 2020, valid through 2023

WORK EXPERIENCE

Production Operator | PT Aneka Mitra Gemilang (Wings Group)
November 2021 – February 2025

- Operated production machinery while maintaining product quality and meeting daily production targets.
- Performed machine setup and routine inspections to help minimize operational interruptions.
- Followed standard operating procedures (SOPs), safety guidelines, and quality standards in a fast-paced manufacturing environment.
- Coordinated with maintenance and production teams to support smooth daily operations.
- Prepared production and material reports to support operational documentation.

INTERNSHIP EXPERIENCE

Intern – Logistics and Procurement | PT Astra Otoparts Tbk
January 2019 – April 2019

- Calculated SND figures from purchase order (PO) documents.
- Handed documents over to other departments and delivered them to the director.
- Organized and maintained document archives.

PROJECTS & TECHNICAL LEARNING

Home Server & CCTV Monitoring | Linux, Docker, Cloudflare Tunnel, Nginx Proxy Manager, Frigate

- Built a PC-based Debian Linux server running services in Docker containers.
- Configured Nginx Proxy Manager, Cloudflare Tunnel, and Frigate for secure remote access, reverse proxy management, and CCTV monitoring.

Digital Library Application | Flutter, Dart, PHP, MySQL (XAMPP)

- Developed a two-way library system as a course project: a Flutter mobile app for members to borrow books and a PHP web panel for librarians (currently being rebuilt and documented).

Campus Parking Management System (in progress) | Arduino IDE, web dashboard

- Building an Arduino-based parking management system with a web dashboard for administrators.

Network Topology Labs | Cisco, MikroTik

- Designed and configured network topologies with Cisco tools and practiced basic MikroTik configuration.

Websites, WordPress & 2D Platform Game | HTML, CSS, WordPress, Construct 2

- Built websites, WordPress sites, and a ninja-themed 2D platform game as academic learning projects.

TECHNICAL SKILLS

IT Infrastructure & Networking: Linux (Debian), Docker, Nginx Proxy Manager, Cloudflare Tunnel, Frigate, Cisco network topology, MikroTik (basic)
Web & Programming: HTML, CSS, JavaScript, PHP, MySQL (XAMPP), WordPress (basic), Flutter, Dart
IoT & Other Tools: Arduino IDE, Construct 2, Visual Studio Code, Android Studio
Productivity: Microsoft Word, Microsoft Excel, Microsoft PowerPoint

SOFT SKILLS & LANGUAGES

Soft Skills: Discipline, attention to detail, responsibility, teamwork, adaptability, and ability to follow SOPs.
Languages: Indonesian (Native), English (Basic)
